Deer Resistant New York Natives

Tired of having your daylilies, yews, hostas, and tulips eaten by deer? If you have problems with deer in your area, try planting some native plants that aren't quite as tasty to deer. The following plants that we carry are deer resistant -not deer proof. There is no such thing as deer proof! Plants with an * are 'occasionally' browsed, while all others are 'seldom' browsed.
